(C) Tomislav Peric, MFA desk officer for Iran, met with Poloff on July 29. Peric said that the day before the Iranian Ambassador to Croatia claimed that Iran would put forward a new proposal regarding its nuclear program in "a few days." The Iranian Ambassador mentioned this development to the GoC during a courtesy call with the new State Secretary at the MFA Davor Bozinovic, when Bozinovic raised concerns about Iran's nuclear program. The Iranian Ambassador said the proposal would be a modified version of what it had proposed earlier, but did not offer any details. The Iranian Ambassador also mentioned that he had a favorable opinion of President Obama and his outreach to the Muslim community. Per reftel request, Post will report more on Croatia's limited relations with Iran in septel.
